

Dr. Gregory Schultz | OD, FAAO

Dr. Gregory Schultz received his undergraduate degree from Ursinus College in Pennsylvania majoring in biology. He then attended the Pennsylvania College of Optometry, graduating Cum Laude in 1991. He subsequently completed his residency in ocular disease and surgical co-management at OMNI eye services in Iselin NJ, where his training involved extensive experience in the management of most complex ocular diseases and visual system disorders.

Dr. Schultz has received advanced training in all subspecialty areas of Ophthalmology including pre and post operative care of cataract, glaucoma, cornea and refractive surgery, neuro-ophthalmology, medical and surgical retina and oculoplastics. He has 18 years of experience in the secondary and tertiary eye care arena.

He has lectured extensively nationwide and his special interests lie in the fields of pharmacology, glaucoma, cornea, external disease, neuro-ophthalmology and medical retina. He is also a fellow in the Academy of Optometry, Ocular Disease section.
